BAKU

International Astronautical Congress 2023

IAC Returns to Baku after 50 Years

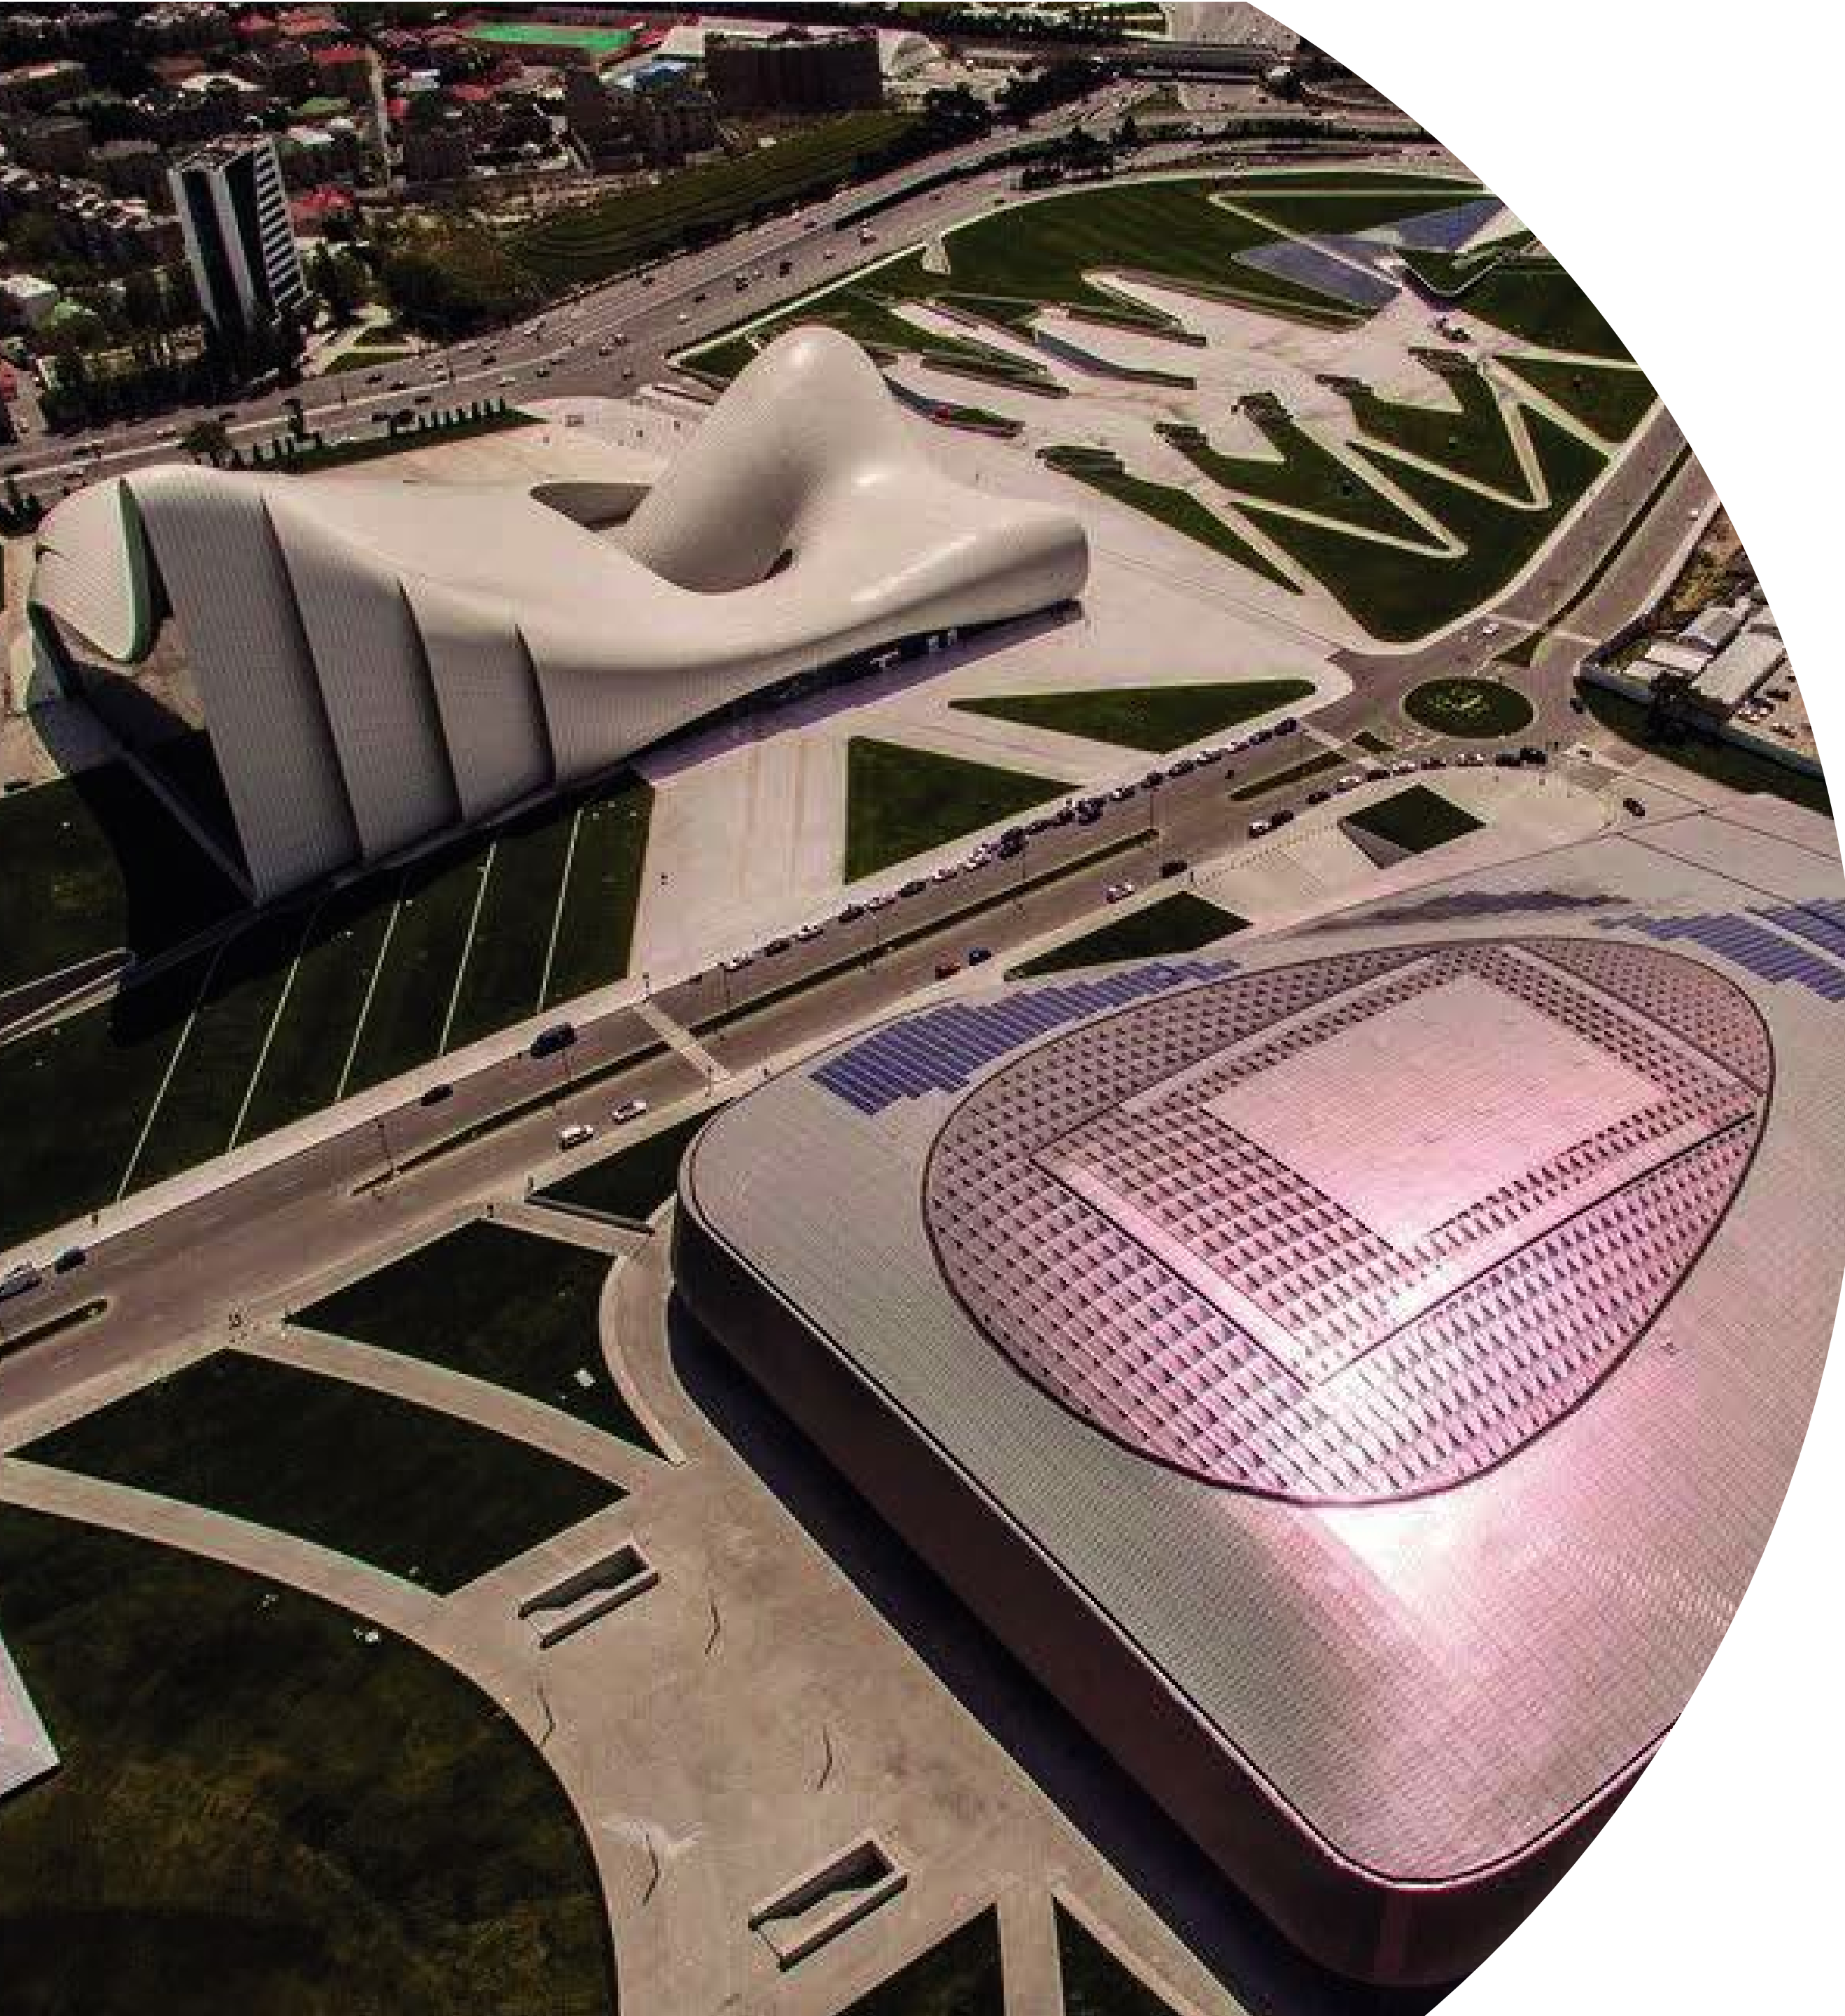

On 7-13 October 1973, the 24th edition of the IAC under the theme "Space Research: Influence on Science and Technology" was held in Baku at the initiative of the national leader Heydar Aliyev. Baku is the only city in the region that hosted this prominent event which left fundamental legacy for the further development of the space industry of Azerbaijan.

In 2019, at the General Assembly of the International Astronautical Federation (IAF) in Washington, D.C., Baku was once again selected as the host city of the IAC, and this grandiose event will be held in Azerbaijan on 2-6 October 2023.

The Significance of the IAC 2023 for Azerbaijan

- Strengthening of the country's position on the international space arena and its role as a member of the "space club"
- Substantial contribution to the development of the space industry
- The opportunity to lead the establishment and further development of the space ecosystem both in local and regional context
- A major step towards raising awareness about everything-space among the general public
- Support to innovative solutions and ideas within the sphere of space technologies and positive impact on the socio-economic development
